7. The Coton De Tulear requires regular grooming, the coat requires removal of the loose hairs to avoid mats and tangles. Are you prepared to train your puppy for the regular grooming that is required? What are your plans for grooming and care of the coat? I am available by phone or you are welcome to visit and see how I groom my Cotons.

8. Your puppy will be a pet companion. Do you have objections to spay/neuter? A copy of a signed non-breeding contract/agreement will be issued when puppy is picked up.

9. Would you be willing to share your veterinarian's contact information, mine is Delisle Veterinary Service at 306-493-3143 if you wish to ask about her experience with my dogs.

10. The registration papers with your name as owner will be sent to you. The decision to spay or neuter must be made carefully and the age considered after a conversation with your vet. A copy of the veterinary certificate stating neuter/spaying can be emailed or mailed. I don't withhold transfer of ownership based on spay or neuter but be aware that all registrations are non-breeding so any offspring can't be registered with CLRC/CFC.

11. Are you willing to allow the breeder(myself) to visit the dog? I am hoping to initiate an owner play date so all the puppy owners would have an opportunity to ask questions and let me know how things are going, would this be something that you would be willing to attend if you are able?

12. I am hoping as a new puppy owner you will be able to give me feedback on my service and helpfulness about 6 months after you receive your new puppy. I will also do a quick survey about 2 years later asking about the health of the dog and if you are seeing any social and behavioral problems. Feel free to contact me if problems occur sooner than 2 years.
